Career Objective

Passionate Software Engineer with a strong foundation in backend development, REST API design, and cloud integration. Eager to leverage my expertise in **Java, Spring Boot, React, Hibernate and SQL Server** to build scalable and efficient applications.

Education

Silver Oak College Of Engineering and Technology, BE in Computer Engineering 2019 – 2023

- CGPA: 7.91/10.0
- **Coursework:** Data Structures and Algorithms, Operating Systems, Computer Networks, Database Management Systems, Object-Oriented Programming, Software Engineering, Web Technologies, Theory of Computation

Experience

Software Engineer, SoluSoft Technologies Pvt. Ltd October 2023 – Present

- **Development:** Designed and implemented client-specific functionalities using **Java, Spring Boot, and JavaScript**. Developed and optimized **RESTful APIs** using **Spring Boot and Hibernate**, ensuring seamless data exchange and integration, and tested them using **Postman and SoapUI**. Created custom UI components and layouts to enhance user experience. Enhanced and deployed new features to meet evolving client requirements.
- **Integration and Data Management:** Integrated the system with third-party services, ensuring smooth data flow. Managed data storage and retrieval using **SQL Server** databases and **AWS S3** buckets. Implemented role-based authentication and data validation to strengthen security and compliance.
- **Technologies Used:** Java, Spring Boot, Hibernate, JavaScript, MySQL, AWS S3, Postman, SoapUI

Software Engineer Intern, Amnex Infotechnologies Pvt. Ltd Jan 2023 – July 2023

- During my six-month internship, Worked on a Spring Boot microservices-based application, implementing authentication and authorization using JWT and OAuth2. Developed UI components in Angular, improving frontend performance.

Projects

CHCS - Insurance Management System

- Built and enhanced client-specific modules using **Java, Spring Boot, and JavaScript**, ensuring robust logic and smooth user experience.
- Developed and optimized **RESTful APIs** with **Spring Boot and Hibernate**, integrated with third-party services, and tested via **Postman/SoapUI**.
- Managed data operations across **SQL Server** and **AWS S3**, implementing role-based authentication and validation for secure transactions.
- **Tech:** Java, Spring Boot, Hibernate, JavaScript, MySQL, AWS S3, Postman, SoapUI

Customer Relationship Management (CRM) System

- Developed a full-featured **CRM web app** for managing leads, quotations, invoices, and workflows using **Spring Boot and React**.
- Implemented lead pipeline tracking, OTP-based login with license generation, and real-time dashboards for revenue and lead analytics.
- **Tech:** Java, Spring Boot, Hibernate, SQL Server, React, Material UI, @react-pdf/renderer, Postman
